4.1.1 General information

When possible, have the product container or label with you when calling a poison control center or doctor or going for treatment

4.1.2 In case of inhalation

Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Get medical attention immediately.

4.1.3 In case of skin contact

Wash off immediately with plenty of water and soap. Take off all contaminated clothes and shoes immediately. If skin irritation persists seek medical attention immediately. Wash contaminated clothing before re-use.

4.1.4 In case of eyes contact

Hold eye open and rinse the eye, also under the eyelids, with plenty of water for 15 minutes. Remove contact lenses if present. Seek medical attention immediately.

4.1.5 In case of ingestion

Seek medical attention immediately and show the container or label. Do not induce vomiting unless directed to do so by a physician or poison control center. Never give anything by mouth to an unconscious person. Do not leave victim unattended.
